

Person Name	Problem	<u>App Found [name]/None</u>
Priyanshi	Do not get push notifications of due dates	Notion
Salim	Junk email does not get deleted periodically	Apple Mail
Shehnaz	It is tough to find parking spots in main cities App that shows live parking garages based on current location with how many spots are left and also show near by meters that are currently not being used	None
Zamir	App that has all the airports map directories in open place. It shows you where you are and you can set destination to gates,shops..etc	None

Likes

Able to customize schedules to fit the need
Can add pictures, customize text and tables for better appearance

To be able add inboxes from any domain and have all IDs in one app.

N/A

N/A

Don't Likes

Have to set a separate reminder from the schedule to receive push notifications

Deleting emails from a while back takes up a lot of time. Build up of junk mail.
Can use up storage.
